Bag2school

We are planning another clothing recycling pick up from the school gate on Friday 14th July.

This collection raises money for the PTFA by families and relations bringing in their unwanted and outgrown usable clothing. This is weighed and collected by Bag2school and the PTFA is then paid by the kilo for what we are able to collect.

We will be giving collecting bags out before the collection date to the children. This is to give you time to fill your bag and if you need some more bags please see Mrs Ham in the office, where they will have a few spare, or you can use your own bin bags.

Please read the bag cover for the items that are acceptable and also the items that they will not take, which includes uniform. Remember there is the second hand rail at school for uniform that can be passed on and sold in aid of the PTFA. If you need anything from the second hand rail please ask at the office and you will be shown where to find it and give a donation to Mrs Ham in the office.

On recycling collection day, 14th July, please bring your bags to school in the morning. If it is dry please just place them up against the large entrance gate and if it is raining please take your bags to the new Shepherd's hut.

There will be more collections each term so please see the school diary for future dates and keep collecting during the summer holidays.

Thank you and hope you have a great summer holiday.
